Hybrid space – the rebirth of place

A woman in a blue jacket and dark pants stands on the left, holding a long string attached to the sign. A small child in a light-colored jacket and red hat stands nearby.

A small child in a light-colored jacket and red hat stands near the base of the sign.

A woman in a striped shirt and dark pants stands next to the sign, holding its base. Another person's arm is visible, pointing towards the letter 'A'.

A woman in an orange high-visibility vest and dark pants stands next to the sign, looking up at it.

A small child in a red jacket stands in the grass near the sign.

A woman in a dark coat and light pants stands on the right, holding a long string attached to the sign.

Let's fix the park

by [John Doe](#), [last updated](#)
We are planning to fix the park which has been damaged by
recent snowfall. We need for an amount of \$1000.

no yes maybe later

Next a man may test a space suit in a three-stage rocket. Perhaps he will pilot stage three after it breaks away and speeds into space. He will go too fast to feel the pull of gravity.

His body will lose all its weight. He will float around the cabin, if he isn't strapped in place. Will the first space traveler like the ride? When he lands, he will tell us.
